## **South Brunswick Township Infrastructure Projects Are Underway** **A Busy 2024 Construction Season**

South Brunswick Township, Middlesex County, NJ — August 21, 2024 — Multiple South Brunswick Township Infrastructure Projects Are Underway as part of the town's long-term work to assure the quality of roadways and our drinking water & sewer utility.

Current Township projects include:

- Williams Road and Roberts Street Roadway Improvements  
This road improvement project in Kendall Park is completed.
- Fresh Impressions Neighborhood Improvements - Phase 2  
This road improvement project in Monmouth Junction is completed.
- Improvements to New Road – Phase 2  
The contractor will complete the water distribution system tie-ins of adjacent roadways to the new water main this week.  
Sanitary sewer main improvements, storm sewer improvements & concrete work are scheduled to begin soon.
- Improvements to Route 522 – at Route 130 and Friendship Road  
The contractor is awaiting installation of electric meter by PSE&G before new traffic signals can become operational.  
The contractor will complete roadway improvements once new signals are operational.
- Freedom Trail Bikeway Improvements  
The base paving for bikeway is complete and the contractor has installed new pedestrian crossing signals. Final paving of the bikeway is to be undertaken soon.
- Fresh Impressions Neighborhood Improvements - Phase 3  
Plans and specifications have been completed with utility & road improvements construction scheduled to begin in October 2024.
- Timber Ponds Neighborhood Improvements - Phase 3  
Plans and specifications have been completed with utility & road improvements construction scheduled to begin in October 2024.
- Wetherhill Neighborhood Improvements - Phase 1  
Plans and specifications are being prepared with construction scheduled to begin in Spring 2025.
- Improvements to Benson Road, Dillon Road and Tyne Court  
Plans and specifications are being prepared with construction scheduled to begin in Spring 2025.
- Sand Hill Road from Old Beekman to Hawthorne Road  
Paving project has been completed.
- Fresh Ponds Road from Davidson Mill Road to East Brunswick border.  
Paving project has been completed.

- Library Expansion Project  
Activity onsite has moved toward the expansion of the building footprint. Footings and foundation walls have been constructed, as well as the elevator shaft. Upcoming work will include the excavation of the storm basins.
- Villagio Drainage Improvements  
To date, the contractor is close to fifty percent complete for the proposed drainage improvements. The scope of work consists mainly of the regrading existing drainage swales to provide proper drainage and the installation of underdrain conduit to assist in problematic drainage areas.

For information on shade tree replacement, call Public Works at 732-329-4000 x7278

There are also projects being constructed under the supervision of the County of Middlesex and NJDOT in South Brunswick. These include the Henderson Road culverts replacement project; Kory Drive with Finnigans Lane signalization; and pavement improvements to Route 1 intersections.

“Undeniably, there is some inconvenience for residents, but it is important to continually maintain our roads and utilities,” said Mayor Charlie Carley, “South Brunswick has long been dedicated to assuring clean drinking water and a good roadway network.”
